EAST JOB DESCRIPTION

**Job Title:** Designer  
**Department:** Operations

**Summary:** The Designer will design and execute visual and creative assets for digital and print projects including websites, marketing campaigns, events, social media, e-blasts, and other print communications. The Designer will monitor trends and feedback to develop recommendations for how to improve our existing marketing efforts and websites. The position demands creative flair, up-to-date knowledge of industry software and a professional approach to time, costs, and deadlines.

**Essential Duties and Responsibilities:**
- Serve as a brand ambassador for EAST and provide guidance and support on its use both internally and externally
- Manage the organization’s graphical brand and implementation of its use that is consistent across all EAST Communications
- Design and create the layout and visuals for all EAST electronic and print communications for events, social media, quarterly magazine, e-blasts, apparel, banners, and more.
- Utilize solid storage management practices and organize all graphics so they are easily accessible
- Collaborate across the business to solve complex problems with elegant and always on-brand solutions.
- Other duties as assigned

**Secondary Duties and Responsibilities:**
- Work with staff to plan and deliver the Annual Conference and other events
- Provide support in the development of the front-end user interface of all EAST web sites using HTML, JavaScript, CSS, etc.
- Capture photographs of EAST activities for use in EAST publications
- Support EAST print related negotiations and purchasing as applicable to related projects.
- Stay up-to-date with current technology, tech news, and industry standards for design and development.

**Qualifications**
- 3-5 years of experience in designing visuals for both print and websites
- Extensive knowledge of Adobe Creative Suite (PhotoShop, InDesign, Illustrator, Fireworks)
- Strong conceptual thinking and design skills with great attention to detail
- Front-end website design experience with CSS, JavaScript and/or HTML (preferred)
- A portfolio that demonstrates outstanding visual design and UI and UX sensibilities
- Experience with responsive design and mobile/web interfaces
- Proficient knowledge of the aesthetics of website and print layout and design
- Ability to work in fast-paced environment, meet deadlines and collaborate with teams across the organization
Ability to train students on front-end design and graphic design technologies a plus
Basic knowledge of the technical tools necessary to execute developed content
Ability to make independent decisions and take calculated risks
Must be extremely detail-oriented
Must have a current, unrestricted driver’s license
Must have the ability to travel overnight
